Explanation of Increase of Operating Income vs. Last Year (Consolidated)

- Operating Income increased by 4.50BJPY to grow from 5.96BJPY to 10.47BJPY.
- The first reason for this growth is due to increase of gross profit of 6.48BJPY realized through revenue growth of 14.3% (24.9BJPY).
- Gross profit of Takamatsu Group increased by 4.21BJPY. Gross Profit of Takamatsu Corporation increased due mainly to increase of revenue. Gross profit of Tatsumi Planning (new Group company) was 0.43BJPY.
- Gross profit of Asunaro Aoki Group increased by 2.23BJPY. Gross profit of Asunaro Aoki Construction increased by 1.82BJPY due mainly to improvement of gross margin.
- SG&A increased by 1.97BJPY as TCG Group.
 - SG&A of Takamatsu Group increased by 1.62BJPY. SG&A of Takamatsu Corporation increased by 0.96BJPY, out of which personnel cost increased by 0.68BJPY. SG&A of new Group companies (Tatsumi Planning and Takamatsu House) were 0.50BJPY.
 - SG&A of Asunaro Aoki Group increased by 0.20BJPY, out of which SG&A of Asunaro Aoki Construction increased by 0.14BJPY.

Takamatsu Corporation : Orders and Its Outlook (Non-consolidated)

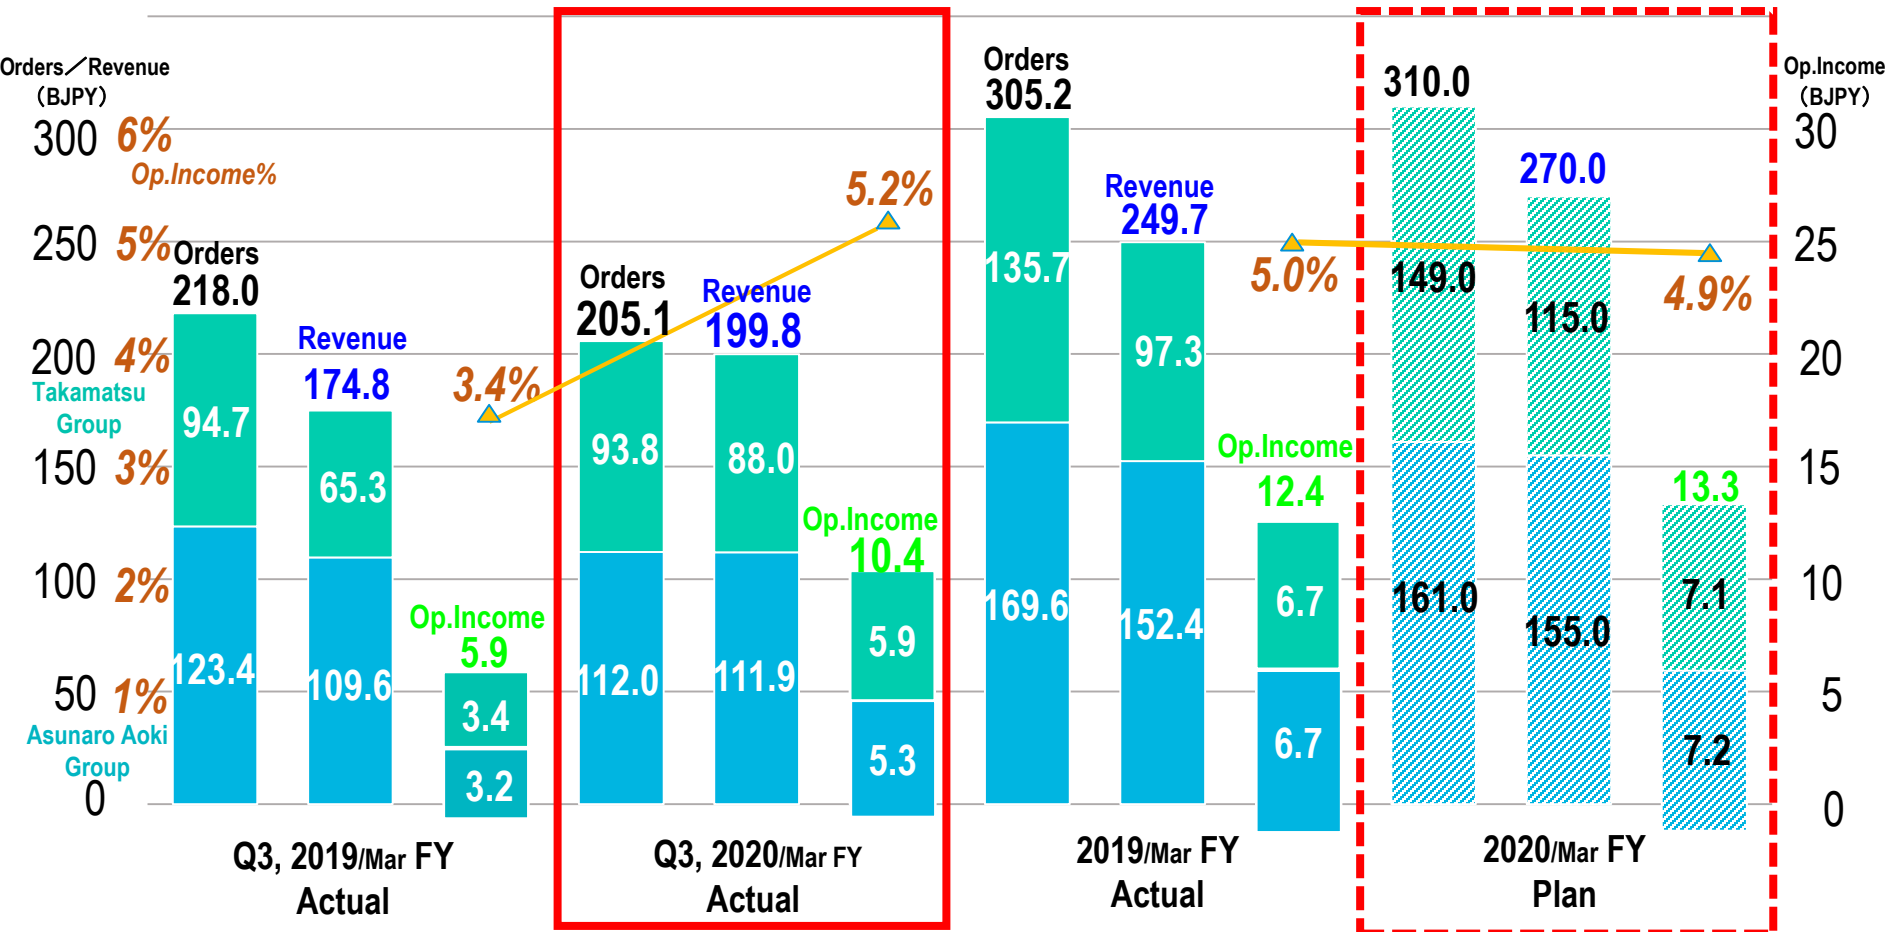

- Orders for Q3 was 60.0BJPY, struggling vs annual plan of 110.0BJPY.
 - One reason of this stagnant figure is because Takamatsu Corp stopped to record orders for projects with uncertain construction start period derived from stricter of order recording criteria.
 - Revenue of FY Mar 2020 is well beyond track due to abundant carryover orders from FY Mar 2019.
 - Dec. 2020 carryforward order is 143.9BJPY, still increasing vs. Dec. 2018 (133.7BJPY) and Mar. 2019 (143.3BJPY) carryforward amounts.
- Kanto Area order was 31.8BJPY, struggling at 51.3% vs annual plan.
- Kansai Area order was 28.2BJPY, also struggling at 58.8% vs annual plan. Further, due to increased ratio of orders for non-condos, we need to enhance proposal, design and construction capabilities towards non-condos that are now being conducted.
- Takamatsu Corporation expect increased Q4 orders, and still aim to win orders of 110.0BJPY.

(BJPY)

By-Group Orders, Revenue and Operating Income and Their Outlook(Consolidated)

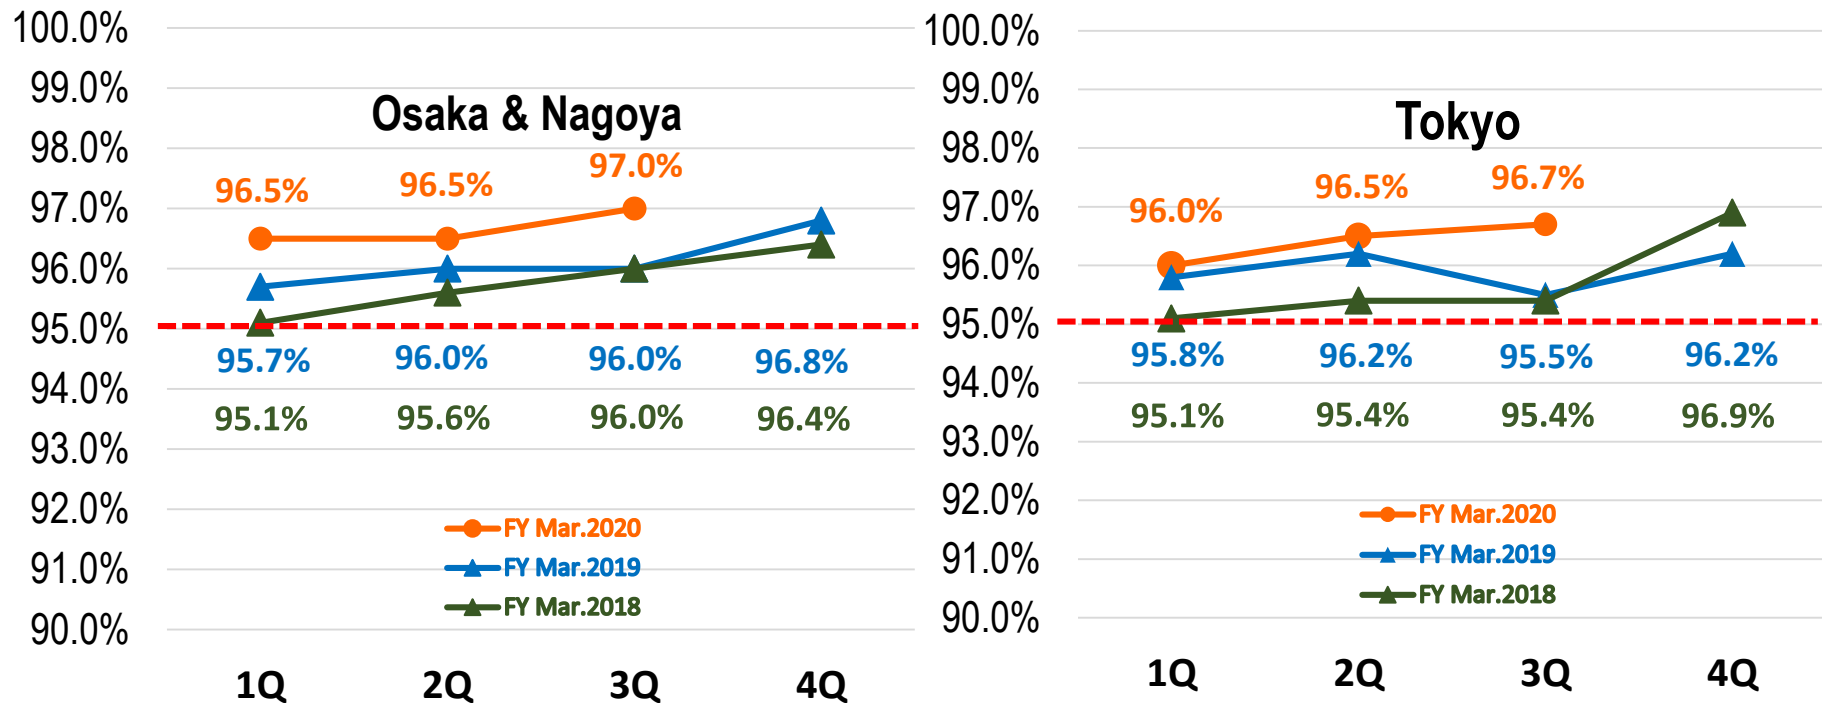

1. Orders are behind annual target of 310.0BJPY, but still continue to head towards achieving the target.
 2. Both revenue and Op.Income are well on track.
- We have no plan to change our annual target revenue of 310BJPY and Op. income of 13.3BJPY since revised GP% of many individual projects are already reflected in our Q3 earnings, which was not the case in previous years.

Occupancy Rate of Condominiums Built by Takamatsu Corporation

1. Occupancy rate is continuing to show above 95% for both Tokyo and Osaka+Nagoya for December 2019.
2. We believe rental condominium market is continuing to be tight for Tokyo and Osaka+Nagoya.
3. Although there are views that occupancy rate will drop for Tokyo, Osaka and Nagoya through aging of the national population, we believe Takamatsu Corp. is remote from this view since Takamatsu Corp. concentrates in urban and near-station locations of the three cities, where population is still increasing.

Definition: "Osaka and Nagoya" = Osaka, Kyoto and Hyogo Prefectures plus Nagoya City.
 "Tokyo" = Tokyo, Kanagawa, Saitama and Chiba Prefectures
 "Occupancy Rate" = (Number of occupied condo apartments built by Takamatsu Corp and managed by Takamatsu Estate at the end of each quarter) divided by (Number of condo apartments built by Takamatsu Corp and managed by Takamatsu Estate at the end of each quarter)
